

• IMMUNIZATION REMINDERS •

Florida State Law mandates that ALL students MUST have an updated record of immunization on file in the school office.

Please request the forms from the pediatrician at the yearly checkups and submit them to the school office. The forms are:

DH 680 (immunization record)

DH 3040 (physical- medical evaluation)

Preschool Students: The immunization records for preschool students must continually be updated since there is an expiration date.

Students entering Kindergarten & 7th grade must have completed the appropriate immunization cycle and provided the school with the updated forms.

Students without the proper immunization forms on file may not be admitted to school.

THANK YOU!
